Reaching the right nurses quickly can be difficult, leaving managers frustrated and nurses disengaged. NurseGrid Manager gives you a centralized platform to communicate with the right nurses in real time. You can also store staff contact, employment, and credential information all in one place.

Flexible Schedule Changes

Better schedule control = happier nurses

Managing complex, inflexible schedules can contribute to nurse dissatisfaction and burnout. With NurseGrid Manager, nurses can initiate Swaps and Giveaways based on their own needs and colleagues' availability; managers approve or deny requests, maintaining oversight.

Company Overview

Based in Portland, OR Founded by nurse entrepreneurs

6,500 nursing departments with 10+ users
